

I am writing in protest of your plan to allow LPFM stations to take priority over current FM translator service.

I listen to K-LOVE, a Christian radio station, and am worried their FM translator may be forced off the air because of this rule change.

Our community does not have a variety of Christian stations available and K-LOVE is about the only way we can get Christian music and viewpoints. Many people who cannot or do not attend church services are listening to K-LOVE and may lose the only source of Christian media they currently get.

I feel K-LOVE provides a public service and is serving the public interest by providing a positive and encouraging radio station and supporting family values. Please keep K-LOVE on our airwaves!

Thank you for the opportunity to comment.
